

# How well does the health care system in **Kentucky** work for people of different racial and ethnic groups?

In Kentucky, **White people** experienced the **highest health system performance**, scoring in the 52nd percentile among all population groups nationally.

**Hispanic people** experienced the **lowest health system performance** in the state, scoring in the 22nd percentile.

Compared to other states in the Southeast region, Kentucky has less severe racial and ethnic health disparities.

## Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). Kentucky performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

## Population by race/ethnicity (2022)

	Kentucky	Southeast	United States
Total	4,428,858	85,235,479	328,403,052
AANHPI	65,909 (1%)	2,600,554 (3%)	19,862,655 (6%)
AIAN	2,934 (<1%)	208,655 (<1%)	1,688,543 (<1%)
Black	328,473 (7%)	16,911,627 (20%)	38,460,950 (12%)
Hispanic	182,009 (4%)	10,891,118 (13%)	62,818,758 (19%)
White	3,651,393 (82%)	50,687,529 (60%)	189,511,136 (58%)

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. “—” means data not available. Southeast states include AL, AR, FL, GA, KY, LA, MS, NC, SC, TN, VA, WV. Source: David C. Radley et al., Advancing Racial Equity in U.S. Health Care: The Commonwealth Fund 2024 State Health Disparities Report (Commonwealth Fund, Apr. 2024).

# How well does the health system in Kentucky work for people from different racial and ethnic groups, and across different dimensions of care?

## AANHPI

An overall ranking for AANHPI people in Kentucky is not available because of insufficient data.

Health outcomes ranking:	insufficient data
Health care access ranking:	insufficient data
Health care quality ranking:	<b>37</b> (of 41) is among the worst

## AIAN

An overall ranking for AIAN people in Kentucky is not available because of insufficient data.

Health outcomes ranking:	insufficient data
Health care access ranking:	insufficient data
Health care quality ranking:	insufficient data

## Black

Kentucky ranks 18th of 39 states where calculation was possible, indicating health system performance for Black people in the state was better than average compared to other states. Specifically:

Health outcomes ranking:	<b>34</b> (of 40) is worse than average
Health care access ranking:	<b>12</b> (of 40) is better than average
Health care quality ranking:	<b>15</b> (of 41) is better than average

## Hispanic

Kentucky ranks 29th of 47 states where calculation was possible, indicating health system performance for Hispanic people in the state was worse than average compared to other states. Specifically:

Health outcomes ranking:	<b>47</b> (of 49) is among the worst
Health care access ranking:	<b>25</b> (of 48) is worse than average
Health care quality ranking:	<b>18</b> (of 48) is better than average

## White

Kentucky ranks 46th of 51 states where calculation was possible, indicating health system performance for white people in the state was among the worst compared to other states. Specifically:

Health outcomes ranking:	<b>49</b> (of 51) is among the worst
Health care access ranking:	<b>34</b> (of 51) is worse than average
Health care quality ranking:	<b>45</b> (of 51) is worse than average
